

# SPIRAL HORN HUNTING SAFARIS

## About Spiral Horn Hunting Safaris

Spiral horn Hunting Safaris is family owned and managed by Dean Cherry and Wayne Bartlett, both seasoned professional hunters and guides with many years experience in the eco tourism and hunting safari industries.

Dean having approximately fifteen years as a professional guide and hunter, operating in numerous game reserves and hunting concessions in South Africa and Zimbabwe. Dean is a member of the Professional Hunters association of South Africa and an SCI and Roland Ward measure. Out of season Dean also has his own photographic safari company that takes tourists and hunters into some of South Africa biggest and oldest game reserves getting up close and personal with the inhabitants of the park.

Wayne is a well known professional hunter with seventeen years experience hunting big game in South Africa and Zimbabwe. Buffalo and Leopard remain his specialty with also good numbers of Sable and Plains game being hunted on a yearly basis. Wayne is a member of the Zimbabwean Professional Hunters Association and is also an official SCI Measure. In the off season Wayne also conducts photographic safaris in South Africa and Zimbabwe Dean and Wayne are dedicated to the success of your Safaris, managed professionally, with attention in detail, to both infrastructure and good camps, A are dedicated to the success of your Safaris, managed professionally, with attention in detail, to both infrastructure and good camps, A Safari with "Spiral Horn Safaris" will be an exclusive success, culminating in both an enjoyable and a memorable experience.

A hunting safari in South Africa or Zimbabwe is sure to be a thrilling experience. Weather you are interested in hunting "The Big 5 or just hunting some plains game, we have the experience and infrastructure to make your African Hunting safari a memorable one.

Spiral Horn Safaris is a South African company based in South Africa and Zimbabwe. Started in the 1990's our ongoing commitment to all clients is to ensure each hunter enjoys a memorable experience while hunting in Africa.

Spiral Horn Safaris offer hunting safaris in various concession areas in South Africa and Zimbabwe.

These areas vary greatly in terms of topography and vegetation. The area in which your safari will be conducted depends on the trophies which are of interest, as well as the time of the year that you want to hunt. It will also depend on the species of animals available in any concession.

Hunting "The Big 5" in Africa has been feared and admired since the first European Hunters set foot in Africa. Today hunting the Lion, Buffalo, Leopard, Rhino and Elephant remain the ultimate safari for most hunters. Each hunter has his own views on which of the great animals present the most challenging to hunt.

As a company, we fully appreciate the huge financial implications involved for most clients to come hunting in Africa, so consequently we are committed to providing the very best quality hunting experience possible. We also guarantee that you will have a great time and that you will want to hunt with us again. If your criteria for choosing a safari include "strict ethics of fair chase hunting", then we are the company for you. The safaris on offer can be classified into two categories namely, a regular safari where a daily rate applies to both hunter and observers and a trophy fee is charged for each animal taken. The second category would be the special hunting packages which are on offer for a specific season. Spiral horn Safaris can help you pick the best category to suit you.

### **Hunting Areas: South Africa**

Our hunting areas include ...

Concession areas include private land in the Limpopo, Mpumalanga, Orange Free State, Northern Cape, Eastern Cape and Kwa Zulu Natal Provinces. Prime private hunting areas to the west of the Kruger National Park Open concession areas to the north and south east of South Africa Privately run game reserves in the Hoedspruit area of the Limpopo Province, just 50km's from the Kruger National Park Family Ranches in South Africa and Zimbabwe

### **Hunting Areas: Zimbabwe**

Our hunting areas include...

The Gwaai Valley and Matetsi concessions, only 150 and 80 km's from Bulawayo in Zimbabwe The rugged Mazowe Valley

situated in the north east of Zimbabwe on the Mozambique border Doma and Chinhoyi concessions, situated 150 km's from Lake Kariba Lowveld Malangani Concession Motopos Concession to the South of the city Bulawayo Dande concession to the western side of Zimbabwe. Zambesi valley.

#### **Species Of Game Available:**

The species of game that we have available for hunting range from Elephant, Lion, Leopard, Buffalo and Rhino. We have good numbers of leopard, as well as an abundance of plains game. Numbers of Sable Antelope have taken a knock due to the Zimbabwean land grabs, but we still have some on quota, and therefore will go out of our way in helping you obtain one. All our game is guaranteed to be completely wild. Spiral Horn Hunting Safaris has concessions for both rifle hunting and bow hunting.

#### **Personnel:**

Our Professional hunters are experienced in pursuing the Big 5 as well as the plains game in Southern Africa, and all of us from the office staff to the different camping staff are committed to making your African safari the experience of a lifetime.

#### **Our Headquarters:**

The Spiral Horn Hunting Safaris headquarters are situated in South Africa with a representative office in Zimbabwe. Spiral Horn Safaris also uses other outfitters when needed and these are hand picked in order to give the same experience to the client, with as much commitment as we have.

#### **Medical Rescue:**

Medical Rescue can be arranged by special request if needed. Please consult your physician or pharmacist with regards to vaccinations and anti-malarial prophylactics / medication.

#### **Liability:**

Any safari can be dangerous and potentially hazardous, and it is essential that all lawful directions and advice of the safari operator be followed. Spiral Horn Safaris accepts no responsibility for any illness, accident or loss whatsoever incurred in the course of the safari, or for any expenses arising from such illness, accident, or loss.

#### **Deposits & terms of business:**

A 50% deposit on the total daily rate is required to confirm your safari with the balance payable sixty days prior to commencement of the safari. All payments are to be made in cash, traveler's cheques, direct bank transfers or certified bank cheque or draft.

#### **Transfers:**

Please note that a combination of plains game with big game will sometimes require that two or more hunting areas should be used. Transfers are effected by private aircraft or by road depending on the distances or on individual preference.

#### **Recommended Packing List:**

1. Four sets of khaki or olive-colored clothing plus socks and underwear. Bring short or long-sleeves – whatever you desire. Laundry is done on a daily basis but cloudy days can result in a slower delivery.
2. Two pairs of comfortable hunting boots (in the event one pair might get wet) – I suggest Courteney boots that are designed for African conditions. They are much more silent than most other brand name boots and are available in the USA, Europe, South Africa and also in Zimbabwe where they are manufactured.
3. One warm jacket for evenings and early mornings – (must be silent if you are hunting cats). Camouflage is permitted.
4. Perhaps a jogging or tracksuit for sitting around the fire in the evenings, especially if you are hunting during our winter months – June through August. Something along these lines is especially important if you are hunting cats and might be spending long hours in a very cold blind. (The temperature could get as low as 32°F / 0°C).
5. A wool cap or ski-hat could come in handy for cat blinds.
6. A hat or cap for protection against the sun.
7. Sun-block lotion, especially if you are sensitive to the sun. Even our winter sun will burn sensitive skins.
8. A small flashlight for emergencies.
9. Perhaps a light rain-suit or maybe only a top – weather all over the world is unpredictable these days.
10. Malaria prophylactics.
11. Insect repellent if you are sensitive to bites, in which case I would also recommend some antihistamine or cortisone cream for treatment of these bites as they do itch.
12. Lip balm if required.
13. Africa runs on 220v power – in most cases from a generator. If you have any 110v appliances you might be wise to bring a 220v to 110v converter. We can generally supply most of these necessities but backup will never do any harm.
14. Sunglasses.
15. A good book? Early hours in a blind can be boring if you are not mentally psyched into what you are trying to accomplish.

16. We do serve South African wines and genuine Scotch Whisky when available, but special brand names of your favorite liquor can seldom be procured. Local Vodka, Gin and Brandy are quite acceptable to the average palate but I suggest that you collect from a Duty Free any Single Malt or other specialized liquor that you may require: e.g. Bombay Sapphire, Crown Royal, Canadian Club, Polish or Russian Vodka, Genuine Mexican Tequila etc.

17. An open mind and a good attitude.

Try to bring as little luggage as possible, especially if you are going to make use of the air charter service.

**Firearms:**

For cats and most small plains game a 7mm, .300 Winchester magnums, or similar caliber will be adequate with about forty rounds of soft nose ammunition; (a few solids would be preferable for very small animals).

For Buffalo, Elephant, Hippo and Giraffe the minimum caliber required by law is a .375 H&H or 9.3mm with 20 rounds of ammunition. You may use soft nose bullets as long as they are of superior quality such as Trophy Bonded Bear Claw, Swift A-Frame, Woodleigh and Barnes-X. If you are uncertain please include at least ten solids.

**Health:**

There are no vaccinations required for entry into South Africa and Zimbabwe, however, it is imperative that malaria prophylactics be taken both before and after the safari. For US\$50 per person there is a US\$250 000 liability cover and Medical Air Rescue Service available. Please advise if you would like to be registered for this. Spiral Horn Safaris (Pvt) Ltd accept no responsibility for any illness, accident or loss whatsoever incurred during the course of the safari, or for any expenses arising from such illness, accident or loss.

**Visas:**

No Visas are required for South Africa, but Visas are required by nationals of all countries which require visas from Zimbabwe. If these are not obtainable in your country of residence they can be purchased upon arrival in Zimbabwe for US\$30.

**Conservancy Hunts on Offer:**

**5 to 10 Day Plains Game hunt**

**Daily Rate:** USD 550 per day (1 x 1)

: USD 450 per day (2 x 1) each

Please note that the above trophy fees do not apply to Botswana

You are expected to arrive the day before your hunt starts – you will be transferred to camp the same day.

Your hunt will be for the full period and you will be transferred to your departure airport on the morning following your last hunting day.

**Extra Charges:**

1. 2% government levy charged on cost of safari.
2. Road transfer to the Lowveld from Bulawayo - \$150 per vehicle.
3. Air charter to the Lowveld round trip from Bulawayo - \$550.
4. Dip & Pack – Please contact colwild@mweb.co.zw for their latest rates.

50% of the daily rate is required to secure the hunt – the balance must be paid at least 90 days prior to the commencement of the safari. Trophy fees and extra charges can be paid at the end of the hunt using US\$ cash or TC's. Please bring some US Dollar small denomination bills with you to pay for incidentals such as Visas (\$30) as there is seldom change available at the airports.

For your airline reservations from within the USA please contact Gracy Travel International - [info@gracytravel.com](mailto:info@gracytravel.com) or 800-299 8558. They have the best rates and are extremely experienced with travel to Africa, particularly where firearms are concerned.

<b>Observers:</b>	USD 250 per day each

## Green Hunting:

Since the recovery of the rhino, to which is now a huntable population in Southern Africa, you can do your part in further research and recovery by doing a rhino green hunt. This is shooting a rhino with a tranquillizing dart. Once a rhino is darted on your green hunt, and after the tranquillizer takes effect, a vet will give him needed medicine, take blood, and take care of any other necessary data for research. We can then take pictures and measurements for you taxidermist so he can recreate your trophy. There is now a place in the SCI Record Book for rhino green hunts.

Don't fool yourself, darting a rhino is just as dangerous. You will probably be darting the white rhino, the lesser of two evils. However if the rhino does smell you or see you he is either going to run away or charge.

Price of above: POR
